

1500FCB

FORKLIFT AGV

CONTACTLESS CHARGING

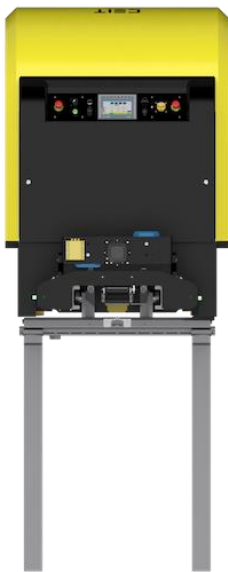

5G TECHNOLOGY

CE CERTIFIED

An autonomous forklift AGV with counterbalance and a lifting height of up to 3 metres. Its high degree of modularity and scalability makes it suitable for use in various production or warehouse premises.

The 1500FCB is ideal for repetitive flows and enables the quick and safe transport of pallets.

SPECIFICATIONS

Device type	Forklift AGV
Manipulation	Automatic lifting
Direction of drive	Bi-directional
Type of lift	Hydraulic
Lifting height	3,000 mm
Lifting speed	25 cm/s
Load capacity	1,500 kg (@ 600 mm)
Turning radius	1,610 mm
Load type	Europallets, automotive trolleys
Forward speed	2.0 m/s
Backward speed	0.5 m/s
Dimensions	W: 1220 mm, L: 3090 mm, H: 2730 mm
Navigation	Contour, laser
Manual mode	Steering handle, remote control, touchscreen module
Safety	Safety PLC, Safety Laser
Batteries	PowerBrick LI-FePO4, 48V

Asseco CEIT AGVs are available with their own MCS control system for guiding and monitoring logistics equipment in real time.

We offer a comprehensive automatic logistics system, including AGV equipment, our own control systems and peripherals.
